PROFESSIONAL SUMMARY

IT operations and business-technology leader with 12+ years scaling internal services in mission-critical, fast-paced environments. Combines people leadership, service delivery, and IAM operations with strong security/compliance instincts. Deep hands-on experience administering productivity platforms (Google Workspace, M365, Slack, Zoom), endpoint/MDM, and access management (SSO/MFA/RBAC), plus networking fundamentals (LAN/WAN, Wi-Fi, firewall). Improves support operations through metrics, process design, documentation, and automation while building durable systems and teams.

CAREER SNAPSHOT

12+ Years in IT / Cloud / Reliability Engineering
100% SLA Across 20+ Mission-Critical Services
30-35% Incidents Auto-Resolved via AI Automation
25,000+ Stale Incidents Eliminated
85% → 98% Operational Efficiency Lift
15-32 Engineers Led Across Global Teams

KEY ACHIEVEMENTS

- Led IT operations and tooling for a 24/7/365 platform; raised execution quality across a team of engineers and contractors.
- Ran identity and access operations — provisioning, RBAC, access reviews, and audit readiness aligned to compliance frameworks.
- Architected AI-driven incident/support automation reaching 30-35% auto-resolution; built an internal AI support agent.
- Improved operational efficiency from 85% to 98% and reduced resolution time 32% via metrics, workflows, and automation.
- Led and developed teams of 15-32 across the US and India with a high-ownership, low-ego style.

TECHNICAL COMPETENCIES

IT Operations Leadership: Team Leadership (15-32), Service Delivery, Ticketing & SLA Ops, Escalation Management, Vendor & Contractor Mgmt

Identity & Access (IAM): SSO / MFA, SAML / OIDC / SCIM (concepts), RBAC & Least-Privilege, Provisioning / Deprovisioning, Access Reviews & Audit, Okta / Entra ID

Productivity Platforms: Google Workspace (admin), Microsoft 365, Slack, Zoom, Collaboration Tooling

Endpoint & MDM: Jamf (familiar), Microsoft Intune, Endpoint Management, 1Password, Device Lifecycle

Networking: LAN / WAN, Wi-Fi / Switching / Routing, Firewall & Access Controls, Connectivity Troubleshooting

Security & Compliance: SOC 2 (concepts), Access Reviews & Audits, Operational Controls, Automation & Scripting (PowerShell/Python)

TECHNICAL PROFICIENCY

IT Operations Leadership & Service Delivery — **Expert**
IAM Operations (SSO/MFA/RBAC/provisioning) — **Advanced**
Google Workspace / M365 / Slack / Zoom Admin — **Advanced**
ITSM, Ticketing & SLA Operations — **Expert**
Endpoint / MDM (Jamf, Intune) & 1Password — **Advanced**
Networking (LAN/WAN, Wi-Fi, firewall) — **Advanced**
Security & Compliance (SOC 2-aligned) — **Advanced**
Automation & Scripting (PowerShell/Python) — **Advanced**

PROFESSIONAL EXPERIENCE

Senior IT Operations & Reliability Manager — Xbox Services

Microsoft Corporation (via TechMahindra) | Redmond, WA | May 2021 - Present

Leads operations, tooling, and service delivery for a 24/7/365 mission-critical platform with strong security and compliance controls.

- Lead and develop a team of engineers and contractors; set priorities and raise the bar on execution and service quality.
- Own identity and access operations — provisioning/deprovisioning, role-based access control, access reviews, and audit readiness aligned to compliance frameworks.
- Establish operational metrics and workflows across ticketing, SLAs, escalations, documentation, and continuous service improvement.
- Drive lifecycle management and governance for systems and SaaS tooling with a focus on scalability, automation, and operational controls.
- Architected AI-driven incident automation (30-35% auto-resolution) and built an internal AI support agent; eliminated 25,000+ stale incidents.
- Partner cross-functionally with Security, Engineering, and business teams to deliver technology rollouts and balance employee experience with risk management.

IT Operations & Platform Technical Lead — Customer Support Services

Microsoft Corporation (via Mindtree) | Redmond, WA | Nov 2016 - May 2021

Led a 15-engineer team across internal platform operations and service delivery.

- Hired, coached, and grew a 15-engineer team; set clear priorities and service standards in a fast-paced environment.
- Managed access controls, RBAC, and least-privilege models; partnered with Security on audit readiness.
- Built reporting, triage, and support workflows improving operational visibility and service quality.
- Optimized tooling spend and SaaS administration without degrading employee experience.

Operations Lead — Live Site & Internal Tooling

Microsoft Corporation (via Mindtree) | Hyderabad, India | May 2012 - Nov 2016

Led 12 senior + 20 engineers across operations and tooling at 99.95%+ SLA.

- Standardized ticketing, escalation, and documentation workflows across distributed teams.

- Built PowerShell automation for provisioning and lifecycle tasks, saving thousands of manual hours.
- Ran incident, problem, and change management; mentored engineers from specialists to leads.

Systems Analyst / IT Engineer

IBM (via Infosoft Inc) | Hammond, IN | Sep 2009 - Nov 2011

Enterprise IT operations, endpoint, and infrastructure support.

- Endpoint, server, and network support; executed migrations, patching, and provisioning across enterprise environments.
- Documented runbooks and resolved recurring issues through process improvements.

SELECTED PROJECTS & CASE STUDIES

Identity & Access Operations — Owned provisioning/deprovisioning, RBAC/least-privilege, access reviews, and audit readiness aligned to SOC 2-style controls.

SaaS & Productivity Platform Administration — Administered Google Workspace/M365, Slack, and Zoom with enterprise settings, permissions, and integrations.

AI-Assisted Internal Support — Built an AI support agent and incident automation (30-35% auto-resolution) reducing toil for employees and IT.

Service Operations & Metrics — Established ticketing/SLA/escalation workflows and reporting, lifting efficiency 85% to 98%.

LEADERSHIP & COLLABORATION

- Led and mentored global teams of 15-32 engineers across the US and India, growing individual contributors into technical leads.
- Central escalation authority and SME for high-severity incidents, coordinating Security, Engineering, Product, and business teams under pressure.
- Ran 1:1s, performance reviews, onboarding, and targeted coaching/enablement plans; built psychologically safe, high-accountability culture.
- Synthesized incident and reliability data into executive reviews driving investment and process decisions.
- Early operationalizer of AI/automation in production support and operations; champion of continuous learning.

CERTIFICATIONS

- Microsoft Certified IT Professional — Azure Infrastructure Solutions (70-533, 70-534)
- Microsoft AZ-900 — Azure Fundamentals
- Google Cloud Computing Foundations
- Google — Introduction to Generative AI
- TechMahindra AI White Belt

EDUCATION

- Bachelor of Engineering in Computer Science Engineering, JNTU, Hyderabad (2008)

PROFESSIONAL PHILOSOPHY

IT operations should feel invisible to employees and bulletproof to auditors. I lead with high ownership and empathy, automate toil, document for self-service, and build durable systems and teams that scale.
